PROFESSIONAL SUMMARY

IT Systems and Infrastructure professional with a Bachelor of Business Information Technology and 2+ years of hands-on experience supporting business and healthcare environments. Skilled in systems administration, IT infrastructure, technical support, network operations, MySQL database administration, and business applications. Experienced in PHP, Python, and SQL-based systems, ERP/POS support, user administration, access management, and troubleshooting. Strong focus on system availability, operational efficiency, security, and reliable technology support.

PROFESSIONAL EXPERIENCE

DR. SPICE ORGANICS LTD — NAIROBI, KENYA

Lead ICT Officer | June 2025 – Present

- Lead ICT operations, systems administration, infrastructure, and technical support across the organization.
- Manage networks, hardware, software, databases, business applications, and system availability.
- Administer MySQL databases and support PHP, Python, and SQL-based business systems.
- Support ERP, POS, inventory, sales, reporting, and other business-critical applications.
- Troubleshoot hardware, software, network, connectivity, printer, and system-related issues.
- Manage user accounts, access permissions, system onboarding, and ICT security controls.
- Support CCTV, biometric systems, internet connectivity, and other ICT infrastructure.
- Implement technology improvements that enhance operational efficiency and system reliability.

CONCURRENT MANAGEMENT RESPONSIBILITIES | January 2026 – September 2026

Nairobi Branch Manager

- Oversaw branch operations including staff coordination, sales, inventory, customer service, cash management, and operational compliance.
- Monitored branch performance and coordinated operational issues to maintain business continuity.

Hurlingham Branch Manager

- Oversaw daily branch operations, staff coordination, sales, inventory, customer service, and administrative activities.
- Coordinated operational and technical issues with management and relevant teams to maintain smooth branch operations.

IT SUPPORT INTERN | SYSTEMS ADMINISTRATION & ICT SUPPORT

Machakos County Government | January 2024 – August 2024

Primary Placement: Kangundo Level IV Hospital

- Administered and supported the AfyaOne healthcare information system, assisting healthcare staff with system operations, workflows, user access, and technical issues.
- Provided first-line ICT and application support across departments, covering hardware, software, printers, network connectivity, and user-related issues.
- Supported AfyaOne users across Kangundo Level IV Hospital and provided ICT support assignments at Nguluni Level III, Kalandini Level III, Kimiti Level IV, and Sengani Level III hospitals.
- Assisted with user account management, system access, onboarding, configuration, and troubleshooting to maintain effective system utilization.
- Installed, configured, maintained, and troubleshot computers, printers, peripherals, and other ICT equipment.
- Worked directly with healthcare staff to resolve technology and application issues and maintain continuity of digital hospital operations.
